ALWAYS LEARNING

PEARSON

MyManagementLab™: Improves Student Engagement Before, During, and After Class

- **Video exercises** – engaging videos that bring business concepts to life and explore business topics related to the theory students are learning in class. Quizzes then assess students' comprehension of the concepts covered in each video.
- **Learning Catalytics** – a “bring your own device” student engagement, assessment, and classroom intelligence system helps instructors analyze students' critical-thinking skills during lecture.
- **Dynamic Study Modules (DSMs)** – through adaptive learning, students get personalized guidance where and when they need it most, creating greater engagement, improving knowledge retention, and supporting subject-matter mastery. Also available on mobile devices.
- **Business Today** – bring current events alive in your classroom with videos, discussion questions, and author blogs. Be sure to check back often, this section changes daily.

- **Decision-making simulations** – place your students in the role of a key decision-maker. The simulation will change and branch based on the decisions students make, providing a variation of scenario paths. Upon completion of each simulation, students receive a grade, as well as a detailed report of the choices they made during the simulation and the associated consequences of those decisions.

- **Writing Space** – better writers make great learners—who perform better in their courses. Providing a single location to develop and assess concept mastery and critical thinking, the Writing Space offers assisted graded and create your own writing assignments, allowing you to exchange personalized feedback with students quickly and easily.

Writing Space can also check students' work for improper citation or plagiarism by comparing it against the world's most accurate text comparison database available from **Turnitin**.

- **Additional Features** – included with the MyLab are a powerful homework and test manager, robust gradebook tracking, comprehensive online course content, and easily scalable and shareable content.
